Background

The International Policy Centre for Inclusive Growth (IPC-IG) is a joint project between the United Nations Development Programme and the Brazilian Government to facilitate South-South Cooperation on key development issues. The Centre carries out applied research and its ultimate goal is to generate knowledge resources to the global development community.

Within a broad partnership framework regarding knowledge-sharing on social protection, initiated by the G20 Development Working Group, the IPC-IG is contributing towards a multi-dimensional policy agenda, building on its renowned global outreach and advocacy portfolio. One of the IPC-IG's key offerings is the support to knowledge-sharing and capacity building on current practices as well as forward-looking social protection policy innovations in low- and middle-income countries through policy dialogue and support to comparative research.
